PATRICIA NICOLE SANTOS

San Bartolome, Sto. Tomas City, Batangas | +63 945 581 3309 | patricianicole.santos01@gmail.com

SUMMARY

Has hands-on experience from academic projects involving network-connected devices, web applications, databases, and cloud services. Eager to gain practical experience, improve technical skills, and contribute to an IT team through an internship.

EDUCATION

Bachelor of Science in Information Technology - Major in Networking Technology **2023 - Present**
Batangas State University - JPLPC Malvar

- Awards: President's Lister from 1st to 3rd Year
- Relevant Courses: Systems Administration and Maintenance, Cybersecurity, Cloud Computing, Internet of Things (IoT), Database Management Systems, Systems Quality Assurance, and System Analysis and Design.

Science, Technology, Engineering, and Mathematics - Strand **2021 - 2023**
Tanauan Institute Inc.

- Awards: Graduated with High Honors

PROJECTS

HydroDeck - IoT-Enabled Automated Hydroponic System **2026**
Batangas State University - JPLPC Malvar

- Built secure user authentication with Firebase Auth, including email OTP password recovery, PIN and biometric app lock, and real-time sync through Firebase Realtime Database with role-scoped security rules.
- Engineered a command pipeline with retries, duplicate suppression and acknowledgments, plus fail-safes that shut pumps off when communication drops.
- Developed offline-first logging with SQLite and Firestore, saving sensor snapshots every 30 minutes per planting batch, and wrote unit tests for the pump, command and history logic.

RedMarket - Shopping and Administration Portal **2025**
Batangas State University - JPLPC Malvar

- Developed a shopping portal with a separate admin interface.
- Used PHP and MySQL for application functions and data storage.

Vibe - Web-Based Social Platform **2024**
Batangas State University - JPLPC Malvar

- Developed user registration, login, profiles, posts, and notifications.
- Used PHP and MySQL for backend functions and data management.

SKILLS

- Networking and IT: Computer Networking, Network Troubleshooting, Systems Administration,
- Programming Languages: Dart, PHP, C#, C++ (Arduino), SQL
- Frameworks and Platforms: Flutter, Firebase, ESP32, Arduino Framework, XAMPP
- Databases: MySQL, Firebase Realtime Database, Cloud Firestore
- Tools: Git, GitHub, Visual Studio, Cursor, Claude, GitHub Copilot, Codex

CERTIFICATIONS AND ACHIEVEMENTS

- Cisco Certified Support Technician (CCST) Networking
- AWS Academy Graduate – Cloud Foundations (Training Badge)
- Philippine National IT Standards (PhilNITS) Passer
